Aquatic Toxicology

Special Issue on the International Symposium « Pollutant Responses In Marine Organisms » (**PRIMO**)

Started in 1981, **PRIMO** is one of the biggest scientific events dedicated to environmental issues dealing with aquatic chemical pollution and biological effects in various animals, plants, and unicellular organisms.

PRIMO particularly promotes the investigation of mechanisms, such as those involved in pollutant biotransformation and toxicity from molecular to physiological level.

This 22nd edition of **PRIMO** was organized by the *French Research Institute for Exploitation of the Sea (Ifremer)*.

Aquatic Toxicology welcomes contributions from **PRIMO22** for this special issue:

Submission Open Date July 15th 2024

Submission Deadline October 1st 2024
